EDUCATION

Bachelor of Science in Computer Science

Sep 2021 - Jul 2025

Bahria University Karachi Campus

- Cumulative GPA: 3.29/4.00

SKILLS

Java	SDLC Concepts	STLC Concepts	Manual Testing
API Testing	SQL	OOP	Postman
TestRail	Functional Testing	Jira	Regression Testing
Git and GitHub	Defect Reporting	Agile Methodologies	Test Case Design

WORK EXPERIENCE

SQL Intern, Bistartx

Mar 2025 - Jun 2025

- Built and managed a sales database to track transactions, employee performance, and regional results.
- Wrote optimized SQL queries and views to make reporting faster and more accurate.
- Linked employee and project data using JOINS and subqueries to monitor task progress.

PROJECTS

LeafInsight (Final Year Project)

Aug 2024 - May 2025

- Built and trained a machine learning model for plant disease detection using Python.
- Improved API speed by reducing response time from around 1 minute to under 35 seconds.
- Created and tested API endpoints with Postman to ensure stable and accurate results.

Baadl (Weather Forecasting App)

Apr 2024 - Jul 2024

- Designed and ran test cases for both web and mobile versions of the app.
- Evaluated REST APIs in Postman to check weather data accuracy and response flow.
- Reported bugs in Jira and followed up through the full defect lifecycle.

Food Delivery App (CappyCuisines)

Nov 2023 - Feb 2024

- Worked as part of the QA team to ensure mobile and web apps met quality standards.
- Performed API, functional, and backend testing while checking SQL data accuracy.
- Reported and documented issues clearly for the development team.

ADDITIONAL INFORMATION

- Certifications:** Java Programming I. (from University of Helsinki)
- Soft Skills:** Communication, Attention to Detail, Problem-solving, Analytical Thinking, Time Management, Continuous Learning.
- Interests:** Software Testing, Data Science, Generative AI.
