EDUCATION

Bachelor of Science in Computer Science
Bahria University Karachi Campus

- Cumulative GPA: 3.29/4.00

Sep 2021 - Jul 2025

SKILLS

Python	SDLC Concepts	STLC Concepts	Manual Testing
API Testing	SQL	OOP	Postman
Zephyr	Functional Testing	Jira	Regression Testing
Git and GitHub	Defect Reporting	Agile Methodologies	Test Case Design
Charles Proxy	ADB		

WORK EXPERIENCE

Freelance QA Tester | uTest (Applause)

May 2026 - Present

- Execute exploratory and structured test cases for web and desktop applications.
- Use Charles Proxy to inspect network traffic, intercept APIs, and capture logs for defect analysis.
- Identify, isolate, and log detailed bug reports with clear reproduction steps, attachments and system logs.

PROJECTS

Network Traffic & Debugging (uTest Academy)

July 2026

- Tested mobile and desktop websites using Charles Proxy to inspect traffic.
- Analyzed HTTP/HTTPS requests to isolate backend API and integration defects.
- Attached clean session logs to high-quality, professional bug reports.

Mobile App Testing & Log Capture (uTest Academy)

June 2026

- Ran functional and exploratory test cycles on Android mobile applications.
- Used ADB commands to extract real-time system and crash logs.
- Documented step-by-step defect reports matching industry testing standards.

LeafInsight (Final Year Project)

Aug 2024 - May 2025

- Built and trained a machine learning model for plant disease detection using Python.
- Improved API speed by reducing response time from around 1 minute to under 35 seconds.
- Created and tested API endpoints with Postman to ensure stable and accurate results.

ADDITIONAL INFORMATION

- Certifications & Training :** Python Programming (University of Helsinki, Ongoing), SQL & Relational Databases (SQLBolt, Ongoing).
- Soft Skills:** Communication, Attention to Detail, Problem-solving, Analytical Thinking, Time Management, Continuous Learning.
- Interests:** Software Testing, Data Science, Generative AI.
